

Pulse Survey #2 Results

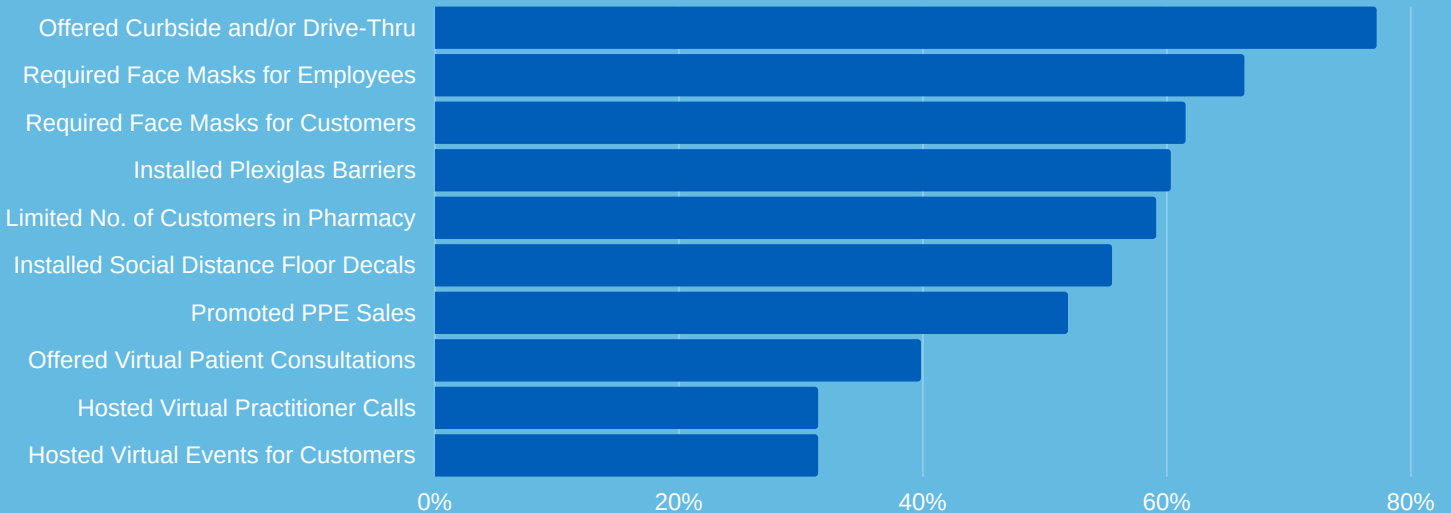

June 24, 2020

PCCA members participated in a recent survey to share how the coronavirus pandemic is affecting their pharmacies and how they are adapting their practices.

Did you close your doors or restrict access to the public at any point during COVID-19?

What operational changes have you implemented?

Top 3 Ways PCCA Members Are Able to Continue Serving Patients

1

Offering Alternate Forms of Prescription Pick-up

Pharmacies continue to promote curbside pick-up, drive thru, delivery and other ways for patients to get their medication without entering the facility.

Encouraging Masks and Social Distancing

Many pharmacies are requiring that their staff and/or patients wear masks while in the facility. They also indicate proper social distancing guidelines through signage or floor decals.

2

3

Ramping Up Their Sanitization

Pharmacies are sanitizing frequently-touched surfaces throughout the day and are offering hand sanitizer to both their employees and customers.

Want to discuss how you can implement these best practices? Your PCCA Account Representative is here to help! Call them at 800.331.2498.
